Fitzgerald Industries International is the premier provider of over 20,000 highly purified Monoclonal and Polyclonal Antibodies, purified Proteins, ELISA Kits and Specialty Research Products. For more than 20 years our customers have known that they can depend on Fitzgerald Industries to supply them with high quality products for research and further manufacture.

We at Fitzgerald have dedicated a great many resources to growing our Immunology product line significantly in the past 6 months. We now list almost 3,500 Immunology products including recombinant and native proteins as well as a vast array of polyclonal and monoclonal antibodies targeting all aspects of the immune system in all organisms, such as physiological functioning of the immune system in states of both health and diseases, malfunctions of the immune system in immunological disorders (autoimmune diseases, hypersensitivities, immune deficiency), and the physical, chemical and physiological characteristics of the components of the immune system. We also offer a huge range of purified and conjugated immunoglobulins from over 15 species, in addition to an extensive collection of secondary antibodies which can be used in multiple applications.

In addition to our impressive Immunology portfolio, we offer comprehensive listings in other research areas including Cancer, Cell Biology, Infectious Disease, Signal Transduction, Neuroscience, Cytokines & Growth Factors, Cardiac Markers, Hormones & Steroids, Protein Modification, Cell Death & Stress, and many more.
